# Choose your plan.

## Bronze

Bronze plans are good options if you don't go to the doctor often but want the security of coverage when you need it. They have lower monthly premiums and higher deductibles. Tax credits can be used to help pay for Bronze plan premiums.

## Silver

Choosing a Silver plan may allow you to save in two ways. First, if you qualify for a tax credit, you can use it to lower your monthly premium. You may also qualify for a Cost Sharing Reduction (CSR)—only available on Silver plans—that lowers deductibles, copays and coinsurance costs.

## Gold

While a Gold plan means you'll have a higher monthly premium, you will pay less each time you go to the doctor and receive health care services. This plan may be a good fit for frequent health care users. If you qualify for APTC, you may apply the subsidy to your Gold plan premium.

*The Advance Premium Tax Credit (APTC) referenced above is a subsidy offered under the Federal Affordable Care Act. It can significantly reduce your monthly premium upon qualification.*
