Our teams work to improve the health of our members by promoting well-being, disease prevention and comprehensive health services, while enabling members to play an active role in their health care.

## **Telehealth Services**

All Denver Health providers are available for appointments via telephone/video. For providers outside of Denver Health, ask your provider about available telehealth options.

## **Save on Prescription Costs**

Ask your provider for a 90-day supply; the cost of a 90-day supply is less than getting a 30-day supply each month. 90-day supplies can also be sent to your home through the mail using the plan's Mail Order Pharmacy.

# Choose your plan.

## Bronze

If you don't go to the doctor often, but want to know you have coverage when you need it, this is a good option. These plans have lower monthly premiums and higher deductibles. Tax credits can help pay for Bronze plan premiums if you qualify.

## Silver

Choosing a Silver plan may allow you to save in multiple ways. First, if you qualify for a tax credit, you can lower your monthly premiums. You may also qualify for a Cost Sharing Reduction (CSR)—only available on Silver plans—that lowers deductibles, copays and coinsurance costs. The SilverEnhanced Savings comes with a \$0 monthly premium, lower deductibles and out of pocket costs for qualified individuals who enroll through the OmniSalud program.

## Gold

While a Gold plan means you may have a higher monthly premium, you will pay less each time you go to the doctor and receive health care services. This plan may be a good fit for frequent health care users. If you qualify for APTC, it will apply to your Gold plan premium.

*Note: The Advance Premium Tax Credit (APTC) referenced above is a subsidy offered under the Federal Affordable Care Act. It can significantly reduce your monthly premium upon qualification.*
