Tools for better overall health

With our Individual and Family plans, you and your family have online tools and resources to help you stay on top of your health no matter where you are. Use our award-winning **Sydney® Health app** or visit anthem.com to view your benefits, look up claims, and visit a doctor virtually at no additional cost.[3] You can also access:

- **Behavioral health** — In-person and virtual care support your mental, emotional, and behavioral health needs through a national behavioral health care provider network twice as large as our competitors.[4]
- **24/7 NurseLine** — A registered nurse is available to answer your health questions anytime, day or night. They can help you decide where to go for care and find doctors and other healthcare professionals in your health plan's network.
- **Symptom Checker** — A virtual assistant, powered by artificial intelligence (AI), directs you to appropriate care, including consulting with a doctor through a video visit or text session.
